

## **News from South Ellis County Water Supply Corp.:**

### **Boil Water Notice March 26, 2018**

On March 26, 2018 the Texas Commission on Environmental Quality (TCEQ) required our public water system, **South Ellis County Water Supply Corp., PWS ID 0 7000 43** to issue a **Boil Water Notice (BWN)**. This is to inform our members/customers that due to low supply levels at the 77 Well Storage Tank some customers have experienced low water pressure and water outages in the following areas:

**Hwy 77, Morgan Rd, Harris Rd, Rosson Rd, Hamrock Rd, John Davis Rd, Dale Evans, Kinfolk Ln, and Carter Rd**

Customers whose service address is listed above and have experienced extremely low pressure or water outages should boil the water from our system prior to consumption.

To ensure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and making ice should be boiled and cooled prior to use. The water should be brought to a vigorous, rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other suitable source.

When it is no longer necessary to boil the water, the water system officials will notify you that the water is safe for consumption. Instructions to discontinue boiling will be issued in the same manner as this notice.

If you have questions concerning this matter, you may contact Michele Riddle, Office Manager of South Ellis County Water Supply Corporation @ (972) 483-6885.

If a customer wishes to reach TCEQ, they may call 512-239-4691.
